### Minnesota Official Marriage System

[MOMS.comments@outlook.com](mailto:MOMS.comments@outlook.com)

**Minnesota Local Vital Record Registrars collaborated to design a statewide marriage index system funded by existing county budgets. Minnesota counties committed to participate to improve customer service. MOMS® won awards from Association Minnesota Counties & Minnesota eCounties and receives inquiries from all over the world.**

**You can search and order marriage records from MOMS® website. No more trying to figure out where the marriage license was purchased and what county to contact. Majority of counties have historical data including current data available for searching.**
