

### **Self Hauler of MSW Policy**

Self-haulers of MSW (household garbage) and demolition materials please be advised that hand-unloading of waste materials is no longer allowed at the working face of the landfill. Unless you have a powered dump truck or trailer please be prepared to deposit your waste in the provided roll-off dumpster in our self-hauler area. Unloading into the dumpster can prove challenging for large, bulky items so plan accordingly as landfill operators and equipment are generally not available to assist. The landfill encourages self-haulers to explore commercial waste collection services, which are available county-wide, if unable to adjust to this policy.
